### 2.1 Setup

Having stowed the Talon of Umberlee in the hold, the crew makes preparations to raise the anchor and head for Neverwinter. Suddenly, the ship rocks though in pain. Four massive tentacles erupt from the water. Three of them gently deposit humanoids on the deck, while the fourth threatens. One of the scaly humanoids is larger than the other two. He has found a wicked trident, and hisses at you as you approach.

"You would ride the queen's oceans from her? Her wrath will sink your vessel as the artifact!"

Young soldier: William Wallace is 7 feet tall.

Wallace: Yes, I've heard. Kills men by the hundreds, and if he were here he'd consume the English with fireballs from his eyes and bolts of lightning from his\u2665\u2665\u2665\u2665\u2665 I AM William Wallace. And I see a whole army of my countrymen here in defiance of tyranny. You have come to fight as free men, and free men you are. What would you do without freedom? Will you fight?

Veteran soldier: Fight? Against that? No, we will run; and we will live.

Wallace: Aye, fight and you may die. Run and you'll live -- at least a while. And dying in your beds many years from now, would you be willing to trade all the days from this day to that for one chance, just one chance to come back here and tell our enemies that they may take our lives, but they'll never take our freedom!!!. I thought each DLC was an extra portal. All it is is some stupid costume you put on. Don't waste your money on the DLCs. Setup:

Love it! I can actually mix drinks I never heard of before..lol. Loving this game already, and only played for an hour or so. Gameplay is good and impactful. Would be great to see a Rocky mode after completing pro :) as I'm quickly getting through the fights, already at my third fight. Some issues with the grip type they went with for Vive, would be awesome to patch in additional grip types, something like TOTF and if Vive trackers could be used as well, then happy days, as footwork can look a bit janky at times but is not too off-putting in gameplay. You really feel like you have had an epic fight with the great music throughout.

Love how the game deals with fatigue and how knockdowns are implemented, you really feel great running back to your body after you have had your life punched out of you, quite literally :) only to deliver some crushing blows once you return to form.

I have been using weighted gloves for this game, as Creed is now part of my roster for VR fitness. Be careful not to overstretch your swing as you will most likely injure your self or smash your play area up :) I find wearing the gloves really gives you a great work out. I recommend going through all vanilla songs on Beat Sabre first, as this will warm you up good for some Creed greatness.. also my first total war game, really fun to play as you can see from time playing I have a bit of experience. EPIC METAL REMIX MUST BUY

11V10. Buy this game, Chickens!. Calling this product a game would be an overstatement.

There are no choices to speak of, so it's not even a Visual Novel.

Right from the get-go, Dead End Junction presents itself a digital dime novel.

And its easy to see why; It was build from the ground up to be a short, pulpy cowboy flick. But that doesn't mean it's bad, as i learned.

8 hours may seem on the short side for VN's, but because of it, DEJ has got really excellent pacing. There is always something going on and no plotpoint is lingered on to long.

The characters are very well written, and although some are a bit trope-y, they play off each other superbly.

And finally, the world of DEJ is great. At the start it seems like your typical Wild-West World but it doesn't take long until this notion is abandoned for a much more interesting setting.

The only valid criticism i have is that the action is downplayed quite a lot. All fights are just one still frame and some sounds. There isn't even a description of the fight, its just \*kling\* \*klung\* [Fate to Black] and thats it.

All in all a very solid ga- digital dime novel thats best experienced over the course of a week in small chunks.

7V10. The song is good and it's a healing game for me.. AccuRC 2 is a fantastic simulator and is my personal favorite for RC Helicopter practice and improvement.

We all want and demand more realism and practicality in a simulator that make it more useful and productive.

In my opinion this is the best simulator for that purpose.

Less of a game and more of a realistic RC helicopter flight experience.

I'm not saying that it is not fun, It a lot of fun!

Last but certainly not least; the amount of updates improvements and new content that have come out for ACCURC 2 since I purchased it almost a year ago is astounding.

This is a very actively supported product! The developers and product team communicate very openly with their customers (us) and are very responsive when you have questions.

. No. Just No. Cute idea with a horrible execution. You have to guide your ever growing worm thing through the maze without getting stuck. So stopping and turning are essential. But the game has a mind of its own. You try to go forward once and turn left by clicking the arrow keys on your keyboard and instead the worm races forward several lengths running into itself ending the game. I could almost deal with the tediousness of it for the achievements and because it could perhaps be fun, but the achievements require the game to play flawlessly which it doesn't. Check out how many actually have completed the achievements and you'll see a pattern. I got it in a bundle. I'm going to spend five minutes on the other game. If it's not a complete winner I'm returning it. Not worth full price. Not worth it on sale for a fraction of that. No help with game functioning on the forum.. It's a good game, yeah, but it has some game breaking bugs that you should know about. One map in the middle of the campaign has a decent chance to just not finish. Even if you do and kill everything. There's no way to fix it other than to start the entire campaign over. Keep that in mind if you buy the game.
